ABOUT US

Allchemist is an innovative company that specializes in Providing high quality medicine storage solutions

We are Allchemist, a company with over 35 years of experience in the medical storage and business industries. Our expertise has allowed us to innovate the way pharmacies store and dispense their pharmaceuticals. Our specialty is providing high quality medical racks that are customized to meet the specific requirements of each facility. We offer a range of customization options to ensure that our racks are tailored to your needs

We understand the critical importance of proper storage and dispensing systems in medical facilities. That's why we are dedicated to delivering exceptional products and services that meet the highest standards of quality. With our extensive experience, you can trust that our medical racks will provide a reliable solution for your storage and dispensing needs

STAY SAFE

As a medical professional, you know the importance of organizing and keeping medical supplies handy to Prevent accidents and damage your facility's reputation. That's where Allchemist comes in. Allchemist designs and manufactures high-quality medical storage solutions to meet healthcare providers' demands. Some of the reasons why Allchemist is the ideal storage solution are:

Superior Quality

Allchemist products are made from durable and high quality materials that resist Contamination and meet international Safety standards

Customization

Allchemist offers a wide range of customization Options to tailor its products to your specific Medical storage need

Expertise

Allchemist's team of experienced engineers and designers use their expertise to develop innovative solutions that make your job easier.

Cost-Effective

Allchemist oers competitive pricing on all of its products without sacrificing quality or safety, making quality medical storage accessible to all healthcare providers.

01

Premium
Pharma+

Pharma+ tailors premium storage solutions for pharmaceuticals and medical supplies, emphasizing safety, organization, and compliance with industry standards.

02 Pharma

Affordable, reliable storage for pharmaceuticals.
Durable, accessible design meets budget needs
without sacrificing quality

Tablet Drawers

Tablet drawers are designed to safely store and organize tablets or pills, with options for adjustable dividers and locking mechanisms for security

Once rack can store upto **120 types of tablets**.

Dimension :
900mm (H) * 880 (W) * 400mm (D)

Chemistray - E 403

A Chemistray is a storage solution used to organize and store chemical reagents, samples, and instruments.

BIN : Chemistray (CH416)

BIN SIZE : 420 MM(L)X 160 MM(W) X 105 MM (H)

BIN MATERIAL : ABS PLASTIC

BIN COLOUR : Light Gray

Open Glass Cabinet

An open glass cabinet consists of glass shelves enclosed by a glass or metal frame, designed to provide easy visibility and access to medical supplies while protecting them from contamination

Dimension :

600mm (H) x 880mm (W) x 400mm (D)

Swing Door Rack

A swing door rack consists of shelves mounted on a swing door, designed to provide easy visibility and access to medical supplies and equipment while maximizing storage space.

Uses Soft Close Technology Dimension

600mm (H) x 880mm (W) x 400mm(D)

Narcotic Drug Cabinet

A narcotic drug cabinet is designed to securely store and control access to narcotic medications to prevent unauthorized access. It typically includes features such as a locking mechanism, adjustable shelving, and tamper-evident seals

Dimension :

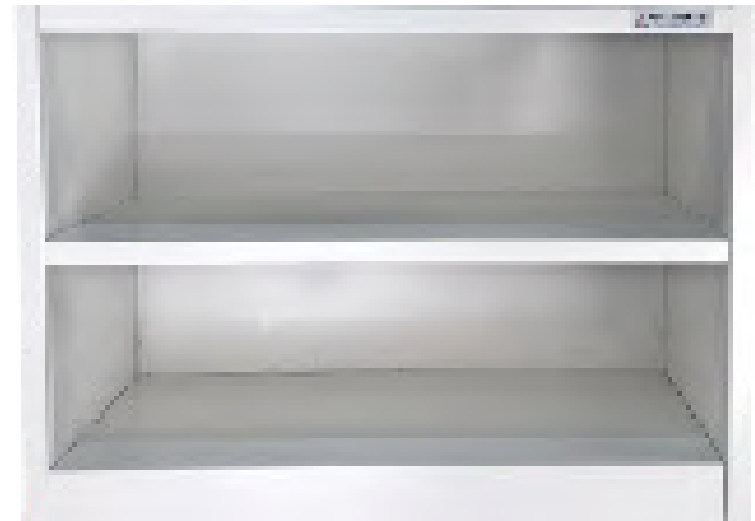

600mm (H) x 880mm (W) x 400mm (D)

Open Storage Rack

An Open Storage Rack consists of shelves arranged in an open configuration, designed to provide easy visibility and access to medical supplies while maximizing storage space.

Dimension :

600mm (H) x 880mm (W) x 400mm (D)

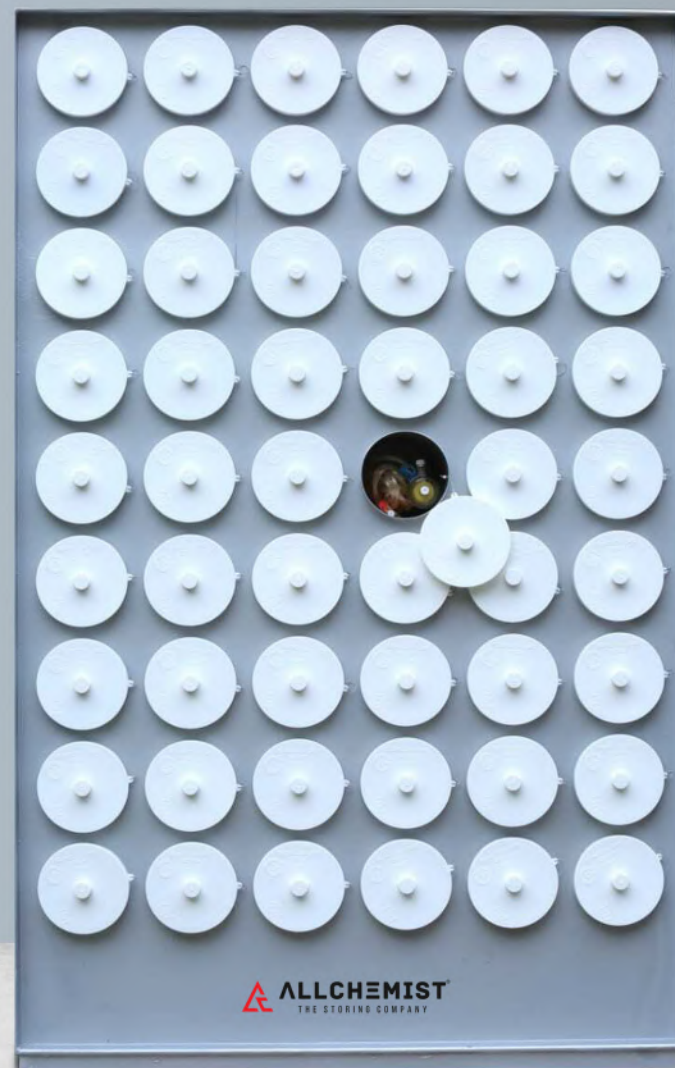

Sliding Glass Storage

A Sliding Glass Storage Rack consists of glass shelves arranged on a sliding track, designed to provide easy visibility and access to medical supplies while protecting them from contamination.

Dimension : 700mm (H) x 880mm (W) x 400mm (D)

03 Diaracks

Allchemist's High Density Storage maximizes space utilization, enhancing workflow productivity with customizable configurations and durable construction for efficient organization

DIARAK ensures hygienic, well organized arrangements
and compact storage of Dialyser & Blood Tubings

Air tight individual compartments
fitted with reinforced plastic lids

Sufficient room space for storing
consumables like Dialyser and
Blood Tubings

-  Eliminates the possibility of cross contaminations
-  Easy to clean, disinfect and sterilize
-  Individual drainage for each compartments
-  Corrosion and chemical resistant

-  Available in different sizes & colours
-  Superior grade PVC material
-  Imported medical standard glues

04 High density storage

Our High Density Storage optimizes space efficiency, streamlining workflow productivity. Customizable designs and robust construction ensure efficient medical supply organization
